

## These Numbers Only Add Up for Millionaires. Our Children will Lose!

\$5.1 trillion	Amount given in tax cuts, mostly to benefit the wealthiest 2% of Americans over the past four years.
1.2 million	The number of children that could lose Medicaid
\$106 billion	Amount of tax cuts that too many Members of Congress want to give this year benefiting mostly, yet again, the very wealthy.
300,000	The number of people, most from working families that could lose food stamps.
\$1 trillion	Estimated cost to Americans to repeal the Estate Tax. Repealing this tax would only benefits estates worth more than \$1.5 million!
1	ONE phone call that you must make to your Senators to tell them "NOT to repeal the Estate Tax.

### THE BUDGET FIGHT IN CONGRESS IS NOT OVER!

As the Senate deliberates during the next few days and weeks, the voices of those who stand for children must be heard every day! United we can STOP Congress from making the wrong choices and instead, convince them to prioritize and protect our most vulnerable children and families.

## Stand for Justice for Children and the Poor!

**Call your Senators today! Tell them:** "Do NOT repeal the Estate Tax" - which would only benefit the top one or two percent of households at the very dire expense of far too many children. Do not accept a 'reform' of the Estate Tax that would actually cost the nation almost as much as a full repeal. It is unjust to give more money to the wealthiest among us while our most defenseless children suffer. STOP providing tax breaks for the rich. Protect funding for programs that serve vulnerable children and families!"

Call Your Senators toll-free at 1 (888) CDF-1221
